

**DISCOVER CLOUD-BASED LEGAL SCHEDULING**

# Make online appointment booking easy with Clio Scheduler

**Work better remotely—and attract new clients—with online appointment booking.**

Make it easy for prospective clients to book, pay for, and confirm their appointments in seconds with a few simple clicks—no matter where you or your clients are located. With Clio Scheduler you can offer a booking process that's convenient for everyone while organizing your client intake process—saving you time and costly overhead.

**Accept electronic online payments and confirm bookings remotely.**

Benefit from the Clio Suite advantage. By syncing Clio Scheduler with Clio Payments, you can accept online credit card payments instantly—and securely—in the cloud, and you can make it easy for clients to pay you the way they prefer. Collect paid consultation funds up-front, decrease the risk of cancellations, and guarantee payment from prospective clients.

**Deliver a better client experience—in the cloud.**

Deliver the experience prospective clients need and expect, and remove physical barriers that prevent people from finding legal help. Offer a modern, hassle-free online booking experience with easy payment options and automated appointment confirmations and reminders.

## Learn More

If you have questions or would like more information about Clio Scheduler or Clio Suite, reach out to your Clio Sales Representative, email [sales@clio.com](mailto:sales@clio.com) or [sign up for a demonstration](#).

**Collaborate with ease as a distributed, remote firm.**

Keep appointment booking consistent across your entire practice and ensure everyone is updated—no matter where they are located. Work more productively by providing all firm members with access and visibility to the same appointment booking software that automatically syncs and updates new events—all online, in the cloud.

**Gain control of your calendar.**

Make it so that meetings only get booked when you want them booked. Designate specific time slots for different types of appointments, so you can determine when certain kinds of meetings take place (whether they're paid or unpaid). Sync Clio Scheduler with your Clio Manage calendar to prevent double bookings, and limit appointment scheduling to customized time slots.

**Save time with customizable appointment templates.**

Empower each user at your firm to work more efficiently. Create reusable templates for different appointment types, paid or unpaid, then watch the templates auto-fill for each new booking—with the correct event name, location, description, and duration.
